

South Coast Water District Recycled Water Distribution Bottleneck Upsizing Project

Eligible Applicant Documentation

South Coast Water District (SCWD) is a local government agency formed on July 29, 1932 by the State of California as a County Water District. A five-member elected Board of Directors oversees policy-making, financial stewardship, rate-setting, capital programs, and long-term planning for the District. The General Manager reports to the Board and leads an 80-person organization in the planning and implementation of District priorities set by the Board.

South Coast Water District has scheduled approval of a resolution for the board of director's meeting on January 8, 2015 to designate the General Manager, Andrew Brunhart, as the authorized representative for the 2014 Water Energy Grant Program.

SCWD will be solely responsible for ensuring the performance of the Pacific Coast Highway Recycled Water Distribution Bottleneck Upsizing project and tracking of funds.
